PROJECT

Shopping Cart Web Application

Tech Stack: Java, Spring Boot, Spring MVC, JSP, Hibernate, MySQL, HTML5, CSS3

- Developed a full-stack shopping cart web application using Spring Boot and Spring MVC.
- Implemented user registration, login, and role-based access control features.
- Designed and integrated dynamic product listing, add-to-cart, and order checkout functionality.
- Utilized JSP for server-side rendering and Hibernate for database operations.
- Connected the application to a MySQL database for managing users, products, and orders.
- Ensured responsive front-end design using HTML, CSS.
